

Hello Campers!

As I write this letter, the wind chill is -13 degrees with snow blowing around, but as I look at the calendar I see the winter days passing quickly and the days of spring and summer just around the corner. I for one am certainly ready for it.

Last years schedule for Andrew + I was jammed full with projects: mainly Codgers Cove Development which has come a long way. All the utilities and the roads are in and the lighthouse stands completed. All that remains is seeding, several hundred more trees to be planted and some landscaping around the lighthouse. Even with all this going on and us quite literally wore out we jumped into another project and added another 94 RV sites to the west of the park, giving us a total of 180 sites. We did 3 group sites of 4. These sites are in a circle like the old days with the covered wagons. We will reserve the availability of these sites until the 2019 season as to get the trees and grass established. We appreciate everyones patience and understanding during last years construction projects.

The 4th Annual Hog Roast will be Saturday July 7th due to the 4th being on a Wednesday

this year and the Bass Master tournament June 28th thru July 2nd. Tickets will again be handed out this year.

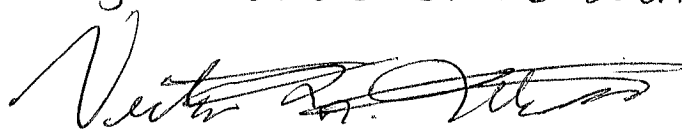

The walleye fishing on lower Oahe is expected to be challenging again this year. Lots of bait fish which is good, but lower walleye count means harder to catch. But very healthy and growing fish.

A change for the 2018 season is the storage units need to be rented for a year at \$900⁰⁰. We just have too many at 5 or 6 months leaving people that wish to rent all year without a unit.

Please fill out the lease agreement form and send it along with your check for \$1400 for the site and \$900 for a storage unit by April 30th.

Again, we want to thank everyone for coming to Codgers Cove RV Park and Development and we are looking forward to seeing everyone again soon. Hopefully we will see many new faces this year as well.

We can almost smell the campfires, hear the laughter and see the beautiful lake now - ALMOST!
