

Hello Campers!

It seems to be a pattern of bad weather every time I sit down to write this News letter. The weather outside is cold  $-6^{\circ}$  below zero and windy to be exact, but there is no doubt within weeks the Park will be open again.

With 1,000 new trees and bushes being planted again this year our goal is to have 4 trees on every site and a row of lilac bushes. Our goal is to have the best Park we can possibly have and over time we are determined to make that happen.

We are hoping to build another storage unit again this year so if you are on the waiting list be patient. A change for this year is the storage unit cost will go from  $900^{\frac{00}{xx}}$  to  $1100^{\frac{00}{xx}}$  per year and again must be rented for the full year. Another thing that would possibly be helpful for everyone is to make a check list for things to do when returning home. Several Air conditioners and inside and outside lights were left on last year when no one was present. Please try to be more vigilant about these things.

The walleye fishing is expected to be good this year until the middle of July. As we all know once those hot summer nights and sunscreen type of days set in the walleye seem to go deep and become challenging to catch.

July 4<sup>th</sup> falls on a Thursday this year. Fireworks will be allowed Friday and Saturday night until 11:30 pm. Please be respectful and careful around neighboring campers. The Hog Roast will be July 6<sup>th</sup> at 6 PM. We will again be serving in "to go" boxes so everyone can sit down with family and friends at the comfort of their own site. If foul weather is imminent other arrangements will be made.

I would like to take this moment and talk about the value of time and more specifically of time spent.

Recently I was informed by a middle aged couple with 2 young children that they would not be returning this year because they are just too busy and don't have time.

It seems as though time may be our biggest adversary when we consider we only have so much time. That's really where the value of time spent comes into play.

What do you suppose the value ~~is~~ of time spent with friends and family. Whether it's boating or fishing or camping and campfires memories will be shared and memories will be made. From young to old and old to young the stories always start out the same "Remember that time when" You see there's that word again "Time" Again I would like to ask this question. What do you suppose the value is of the Time spent with Friends and Family?

Hope to see you all again very soon.!!
